### Track

1 lap, approximately 3 km in length.  
Track is marked with signs and ribbon.  
Track is 60% uphill/downhill

## Race

The competition starts with a mass start in four waves:

1. Gold
2. Silver
3. Bronze
4. Trial

All competition classes run on the same track. The competition takes 1.5 hours. The winner is the competitor, who has completed the most laps during the given time. After 1.5 hours, the finish will be opened.

On every lap each competitor can pass through the maintenance area, for maintenance, repair, rest or refueling. NB! It is mandatory to move at the walking speed in the maintenance area, speeders will be removed from the race.

Intentional non-compliance with the race track by the competitor will result in the cancellation of the race result. In case of leaving the race track by mistake, the competitor must re-enter the race track in the same point.

## Additional info

**Only competitors, judges and official helpers are allowed to be on the track.**

Only competitors in classes Silver and Bronze are allowed to use assistance from official helpers.

Official helpers have to be registered, ropes and other resources are NOT provided by the organizers.

## Technical info

Race bike does not have to be road-legal.

Race bike has to be in technically good condition: no oil leaks, no unsafe broken plastics or other details.

Race bike cannot be hazardous to competitors in any way.

If the race bike becomes hazardous during the race, the judges can remove the competitor from the race.

The competitor must have a valid helmet, suitable boots and chest / back protector.

The competitor must have a racing number on the bike (front and on both sides).

Organizers suggest having a pulling strap in the front of the bike.

WELCOME TO THE FIRST HARD ENDURO IN ESTONIA ☺
